**SITUATION:** D-Day +30. The port of Cherbourg is a strategic logistics asset and must be secured for Allied use. Allied forces have secured the Normandy beachhead and advanced about 30 miles inland. Though in retreat, German forces continue to provide strong resistance. German bunkers, artillery and armor have dug in around the port of Cherbourg and are providing stiff resistance. Allied air forces maintain air superiority over western France.

**TASK:** Search and destroy enemy military assets in the vicinity of port of Cherbourg. Friendly assets include FAC Overlord and Colt 1, an on-call flight of P-47's to assist. Dodge 1, RAF Spitfires will provide CAP. UK destroyers, Devil 1, are on station to provide naval fire mission support.

**PRIMARY:** AAA protecting the port and machine gun nests protecting southern approaches to the town. Minimize collateral damage to port facilities and equipment. RTB and rearm/refuel as required.

**THREATS:** AAA.
