MISSION OBJECTIVES

Today's mission (XR-352-P) has three main objectives:

- Provide On Call CAS support in the southern Section of the AO from 06:30z to 09:00z.
- Train with 93rd ARW out of Fairchild AFB, newly arrived in theatre.
- Familiarization with Local area and AO procedures

On-Call CAS

INTELLIGENCE UPDATE

OVERVIEW 06 DECEMBER 2016 AT 01:00 ZULU

Daesh fighters are expected to make a final move on the town of Palmyra this morning after taking the airport late last night.

The Syrian Army has retreated to the Palmyra Army Depot and are expected to hold the base against the current Daesh attack. The Palmyra Army Depot is a suspected WMD storage area, and it's in Syria's best interest to secure these weapons from being compromised.

The State Department and OGA have reached out to the Syrian leadership to offer assistance in securing the WMD but all offers have been declined.

The COALITION partners have determined that WMD falling into the hands of DAESH is to be avoided at all cost.

The Russian Navy Task Force centered around the Cruiser VARYAG is expected to make port at Tartus this afternoon. Refueling and replenishment operations are expected to take 12 hours.

RIVET JOINT has detected indications of a new SA-3 battery located at TIYAS airbase. The proximity to the FEBA near Palmyra indicates that the Syrians intend to hold TIYAS in the face of any organized Daesh attack.

The new teletype link (POLECAT) between the Syrian Ministry of Defense, RUAFHQ and JACKAL is now operational. This development is meant to ensure positive communications between military leadership on all sides of the situation in Syria.

MISSION PLANNING

Mission Number – XR-352-P

Departure: VFR Departure runway 31 from C2 (8998 ft remaining)

Afterburner: Yes

Departure Instructions: VFR 31 Dep **LEFT** turn heading 180 maintain 6000.

Note: There is no ATC control outside the OJMF control zone. OJMF Control Zone extends in a 10nm radius up to 5500ft MSL

- Ford 51 will depart runway 31 with an immediate left turn to heading 180. Expect to be pushed to FOCUS control leaving 5000ft.
- Rendezvous and refuel with Texaco 51 at Steer Point 2 (ADDER).
- Take Up On-Call CAS with an orbit overhead Steer Point 3 (Al-Tanf)
- VUL time is 0630-0900 Z.
- Following VUL time, TEXACO 51 will be available for refueling if desired.
- Expect the visual approach and overhead break runway 31.
- When overhead Syrian Territory, ensure you are **EAST** of the 38 E line.

THREATS

The Syrian Air Force has increased operations dramatically in the last 24 hours. Yesterday, they carried out multiple airstrikes in defense of the city of Palmyra. SU-24 and MiG-29 attacks were observed, with all operations out of the TIYAS airbase.

Russian SU-35 CAP aircraft have been observed in and around the port of TARTUS, which coincides with the expected arrival of their naval task force later today.

Syrian Air Force has MiG-29 on alert at TIYAS and SHAYRAT airbases, all believed to be in a 15-minute alert status.

Russian SU-35 are on 5-minute alert at Latakia Airbase.

Operation Inherent Resolve

On-Call CAS

Syrian IADS network is still operational. Damascus is defended by long range SA-5 and SA-2 batteries.

SA-2, SA-3 and SA-6 batteries near the airbase at TIYAS are operational.

High volumes of AAA and MANPADS expected throughout the AO.

RULES OF ENGAGEMENT

ROE Weapons Tight – Do not fire unless under direct attack or authorized via JACKAL or FOCUS control.
