

MISSION 1 - DEBRIEFING

Read after completing the mission!

At the end of April four MB 339, 4-A-112 and 113 on the 24th, and 4-A-115 and 116 on the 29th, were relocated from the mainland to BAM Puerto Argentino, making the aeromacchi the only jet to operate from the islands. Unfortunately I couldn't find particular informations about the flights so this mission is an estimation of what those relocation flights could've looked like.
