

# ***MISSION 6 – Homecoming***

***Puerto Argentino – 05/06/1982 – 09:00***

## **Situation**

05 June 1982

British forces are relentlessly advancing west towards Puerto Argentino. Of the seven aeromacs we flew to the islands, only two are in condition to fly: 4-A-113 and 4-A-114 are lost; 4-A-110, 4-A-112 and 4-A-116 have been cannibalized to make 4-A-115 and 4-A-117 somewhat airworthy. We are not an effective fighting force anymore, and we are bringing the personnel and what materials are left back home. As they say live to fight another day.

## **Tasking**

The majority of the support personnel of the group already boarded C-130s and F-28s bound for Rio Grande days ago, we are among the last left here. For the last five days we tried starting our planes without success, until this morning, when they finally came alive.

You'll be number two for the flight home, follow your leader in 4-A-117 and bring your plane home.

Developer's notes:

- Take Off after your leader, follow him and you'll be safe.
- Mission time: 45 min
