

Mission 6, Bomb fishing

70mn

25th of March 1993

The mission in Palmyra has disrupted the supply of the militias ... But these latter don't run out of ideas ! Knowing that now the land borders and the sky are under surveillance, a group of militiamen seems to be supplied by sea.

A Lebanese ground recce unit has spotted some trucks, armed men and one speedboat waiting along the shore near the northern border. Refraining themselves to act, they hope to find out which ship will come to supply them. Probably a trawler blending in with the other fishing boats.

Briefing

A Mirage 2000 was prepared in a hurry with 8 Mk-82 "Snake Eye", ready to take off and strike this ship as soon as it is identified.

For approach and landing, use the standard F5 ATC radio menu !

This is a **cold** start.

To complete this mission you will need to takeoff, follow Brennos instructions, hit the assigned targets then land at dusk or night at Mafrag Air Base and park your plane to the assigned location (29).

Advice

- Respect the borders, use the passageway previously defined to go in and out Lebanon.
- You can use all your bombs for the main boat (the other targets just need yours guns). Two bombs directly in the hull are required to sink it. But damaging it is enough to continue the mission.
- Recommended bomb setting : **Inst / 4 (nb) / 1 (dist x10m), 450 kt / 800 ft.**
