

## Mission 9, The Good Samaritan

75mn

1st of April 1993

The incident of March 30 is not really clarified. Only one thing is certain : the F-5 pilot failed to eject. Syria and Jordan are still discussing behind closed doors. Either the Syrian pilot seriously believed you crossed the border or he thought he was facing a 2 Mirage patrol and deliberately attempted to shoot you down to teach French Air Force a lesson.

**Briefing**

Today you are tasked for a CAP. Just follow your flight plan and Brennos' orders. Intelligence service has identified no special threat. So you hope a quiet mission ... except about the weather : the sky is totally overcast between 3000 and 5000 ft.

Mission starting at **03:00 pm**

- WP1** 450 kt / 15 000 ft
- WP2-5** 450 kt / 20 000 ft
- WP6** 300 kt / 5 000 ft
- WP7** Mafraq Air Base

**Radio frequencies**

Mafraq Tower	118.30	Green Radio Channel 1
Magic (AWACS)	253.00	Green Radio Channel 2
Shell (Tanker) / TACAN 31X	255.00	Green Radio Channel 3
Ground units	257.00	Green Radio Channel 4
Mission (Brennos & wingman)	251.00	Red Radio Channel 1

For approach and landing, use the standard F5 ATC radio menu !

This is a **cold** start.

## **The Cedar and the Rooster : A Mirage Story**

**M09**

To complete this mission you will need to follow Brennos instructions ... then land at Mafraq Air Base in bad weather conditions and park your plane to the assigned location **(29)**.

### **Advice**

- Respect the borders, use the passageway previously defined to go in and out Lebanon.
- You might need to register a new waypoint in your system. Be sure to know how to do that.

(Kneeboard available in flight)

**Airfield**

Mafraq Air Base            Radio 118.30

**Radio frequencies**

Mafraq Tower	118.30	Green Radio Channel 1
