

MISSION 1 - TARAN

SITUATION:

Comrade! Our leading units have surpassed the main army forces. We have an important task ahead. We need to take control of several river crossings of the division, as the transportation hub of the district - the city of Caen - is located on the other side. However, it is not possible to do it at full speed. Therefore, the main objective is to capture and organize a place of arms for the advancing army. There are three bridges in close proximity to our location. The leading marching column of the tank battalion is already moving towards that direction. Your task is to ensure CAS and mission success. We do not know the composition of enemy forces. There may be retreating enemies on our right and left flanks; avoid engaging them unnecessarily.
