

MISSION 2 - BASE OF OPERATIONS COVERAGE

SITUATION:

The operation to capture the bridges was successful despite destroying the north bridge. The two remaining bridges secure our river crossing point for our forces. One tank battalion is currently positioned on the left bank of the river in a small forest, and a second battalion with a supply column is expected to arrive. The primary objective is to protect our forces from artillery strikes and enemy helicopter attacks. Your task is to provide close air support in the waiting area east of the base of operations. Once in the area, contact the forward aircraft controller of the tank battalion, call sign "Buran," and follow their instructions.

MISSION 2 - BASE OF OPERATIONS COVERAGE

ORDERS:

Depart from the FARP close to the city of Lisieux at 1100 hours.

Advance to the designated waiting area. Establish communication with the tank battalion JTAC (call sign - Buran). Prepare to respond to any hostile ground and air threats. Remain in the waiting area until relieved by the next pair of helicopters.

Landing at Lisieux's FARP. ARK channel 3.

Combat and Control Group (CCG) - callsign Dunay (124.0 MHz).

JTAC - call sign Buran (P-828 channel 2).

Control Your wingman in a common way (standard radio).
