

MISSION 3 - TO THE FAR STATION

SITUATION:

The Caen railway station is a significant transportation hub. Currently, there is a concentration of substantial quantities of equipment, ammunition, and fuel at the station. Without a doubt, these cargoes arrive here with the intent of reinforcing the front line and defending the city.

To impede the enemy troops' supplies, eight Su-24M bombers will bomb the station. For successful execution of the mission, it is essential to suppress air defenses in the station's vicinity. MiG-27K fighter-bombers will attack the Hawk SAM system. A Ka-50 flight was assigned to neutralize short-range air defenses. The flight will be led by the squadron commander (callsign 103). Your pair will be the second aircraft in this flight. After taking off, position yourself to the right and back of the formation, and follow all instructions provided by the commander. Best of luck!
