

# Apache Griffin Campaign – Remastered

## Mission 00: Mayflower

Date/Time: 10 Sept 2012 0135UTC (0535LT)

Weather: Clear      Temp: 22°C /72°F      Sunrise: 0604LT  
Visibility: Good      Clouds: 8,000ft      Wind: GRND 251°, 1 m/s  
QNH: 29.92      2000m 167°, 4 m/s

### Situation

As you know, US forces broke the backbone of the Iranian Air force and cleared the skies for the ground offensive. Since that time, several NATO countries joined the fight. As of this morning, NATO ground troops have advanced into mainland Iran in Bandar Abbas and Bandar Lengeh. The Iranian Revolutionary Guard are putting up bitter resistance but recognize conventional warfare against a superior force is futile. Organizing themselves into small irregular groups which also include paramilitary and pseudo-civilian conscripts, the Iranians modern guerrilla warfare tactics will force us into small skirmishes that elongate our presence and expose you to greater risks.

We are currently reinforcing our positions along the coast as we push North towards Lar Airbase located North of Bandar Lengeh. The Griffins will operate from Lar in the early days of the ground offensive.

You've just arrived in the Persian Gulf and are aboard the USS Tarawa. This morning's operation has you transferring to a small FARP located halfway between where we currently and Lar Airbase.

### Blue Task

Leave the Tarawa and reposition the Apaches to FARP Rome. The Apaches are needed for a mission tomorrow morning on a mission further inland.

### Mission Elements

- [-01-] Cockpit campaign and mission brief
- [-02-] COLD START from [=LHS-Tarawa=]
